Daniel J. Mollura MD

Dan Mollura, MD is the Founder and CEO of RAD-AID International, a nonprofit organization pursuing the mission of increasing and improving radiology for low-resource and medically underserved communities around the world. He studied International Relations and Government at Cornell University as an undergraduate (1990-1994) and was a Financial Analyst for Goldman Sachs Investment Research Department (1994-1996). After completing the Columbia University Post-Baccalaureate Premedical Science Program with bench research work in cancer cell biology (1996-1999), Dan received his MD from the Johns Hopkins University School of Medicine (1999-2003). He then completed Radiology Residency and Nuclear Medicine (molecular imaging) Fellowship training at the Johns Hopkins Hospital (2003-2009). From 2009 to 2019, Dan served as a Staff Clinician Radiologist at the National Institutes of Health (NIH) Clinical Center where he also led an artificial intelligence (AI) research laboratory on infectious disease and molecular imaging. Dan founded RAD-AID as a 501c3 nonprofit in 2008 and has served as RAD-AID's President and Chief Executive Officer from 2008 to the present, in which his leadership of RAD-AID became his full-time position in 2020.
