

My CT Colonography Center Locator

Are you on the map?

Make sure patients can easily find your center

Facilities that offer CT Colonography (CTC) are invited to join the new **ACR® My CT Colonography Center Locator**—an easy-to-use, online tool that helps patients quickly find a nearby CTC screening location.

Patients enter their zip code to find nearby centers. Listing your center is free.

Register your center today!

Additional ACR Colon Cancer Screening Resources

Featuring:

- ACR Appropriateness Criteria[®] to help you make the most appropriate imaging decision for colorectal cancer screening.
- Practice Parameters & Technical Standards: View the ACR Practice Guidelines for performing CT Colonography in adults.
- C-RADS[®], a standardized reporting, risk assessment and management tool for colorectal and extra-colonic findings.
- The NRDR[®] CT Colonography Registry, which provides evidence-based health outcomes and process data for decision-making purposes.
- A video of a CTC exam and a patient brochure for use in your practice.
