

New from Touchstone...

See your imaging results online in a patient-friendly format!

What is this?

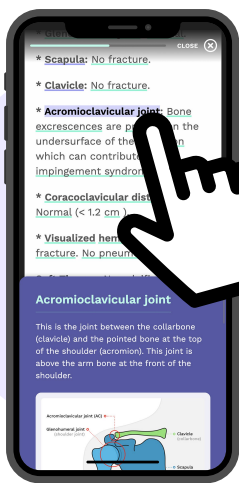

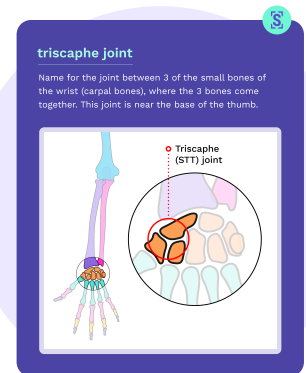

A new way to see your imaging results—anytime, on any device.

Once a radiologist has looked at your images, you'll receive a text message with a link to read the report online.

How does it help me?

Medical terms are explained with plain language & helpful diagrams.

Scanslated™ adds patient-friendly definitions and illustrations to every report automatically, so understanding as you read is easier than ever before.

How do I use it?

Click on words to see explanations as you read.

Simply clicking on any highlighted word in your report will show its definition right on the page.
