 T1: a couple things (1) work really hard as a resident, read large volumes of cases and build your knowledge base so you get great LORs

RFS  **ACR RFS @ACRRFS** 16 hours ago
 Great ideas, Dr. Aiken! #RadResChat

 **Ashley Aiken @ENThawk** 16 hours ago
 @ACRRFS T1 And also: •Find mentors to help guide you along the way •In general, your genuine interest will make you a competitive applicant. #radreschat

 **Carolynn DeBenedectis @c_debenedectiMD** 16 hours ago
 T1: (2) get involved in research and publish that research to add to your CV and show fellowships you have the skills to do research and publish as a fellow

 **Vishesh Jain @lifeofsmilez** 16 hours ago
 @ACRRFS Hello y'all! I'm Vishesh from CA, applying to #pedsrads fellowship this fall. Love MedEd, ethics, medical humanities. Excited to join this #RadResChat !

 T2: What are some key questions to ask when evaluating a fellowship program? #RadResChat <https://t.co/Xzwmv2mkrB>

 **Carolynn DeBenedectis @c_debenedectiMD** 16 hours ago
 T2: ask about fellow culture and program culture: do fellows get together outside of work? How do attendings and fellows interact? #RadResChat

 **Ashley Aiken @ENThawk** 16 hours ago
 @ACRRFS T2 – ? to ask fellow programs - What is the general exposure- volume, rotations, procedures- for neuroradiology for instance- how much spine vs H&N vs functional brain vs peds - How much exposure to referring clinicians who understand multidisciplinary patient care? #radreschat

 **Carolynn DeBenedectis @c_debenedectiMD** 16 hours ago
 T2: what type of jobs do fellows get? Private practice or academic? Do fellows have their pick of jobs from that program? Where have they gone? #RadResChat

Chelsea Schmitt [@chels2718](#)

T2 - Any specific advice for getting a feel of the culture of a fellowship program during virtual interviews? Is it acceptable to ask to speak with current fellows? [#radreschat](#)

Carolyn DeBenedectis [@c_debenedectiMD](#)

16 hours ago

T2: ask about diagnostic and procedural volumes that the fellows get exposed to. Also what kind of didactic do they get? journal clubs? Simulations?

Ashley Aiken [@ENThawk](#)

16 hours ago

[@ACRRFS](#) T2 - more ? •Any recent or planned major changes? •Success of recent graduates? •Work-life balance?- these questions can be tricky to ask, but it is important to understand how a program values this •What is the approach to diversity? [#DEI](#) [#radreschat](#)

[@ENThawk](#) [@ACRRFS](#) Love these. Regarding the latter - I think presenting at interdisciplinary conferences/tumor boards is a valuable experience. When asking about opportunity/expectation for fellows to do so, what would be a healthy #/year in your minds? Eg 4 conferences/year? 8? [#radreschat](#)

Brent Weinberg, MD, PhD [@BrentWeinberg](#)

16 hours ago

I present a lot at tumor boards and we try to include fellows as much as possible. I don't think there is a specific number, but getting involved in a variety (e.g. brain tumor, head & neck cancer, thyroid, etc.) exposes you to a wider range of information. [#radreschat](#)
